WCC Projects Update

- **Web Site:** Marisa Bolognese, who will be joining the Commission as a new member and has some Web building experience, will look into how we can improve/extend our Web site, either as a separate site or as an extension of the information already on the town Web site. She will contact Town Clerk Kim Seymour to get an idea of what we have now.
- **Civilian Conservation Corps Trail:** The trail is complete. Work on the informational kiosk continues. Jeff will take a look at the historical photos and contact Image Loft to see if they can be enhanced. Andrew to follow up with graphic artist Mark Martins and check with Lyman Orton to see if original photos exist.
- **Weston Community Garden:** Marisa has set up a meeting with Lisa Yrsha to discuss the Rec Center as a possible location for the Community Garden. She, Retta and Lisa will meet at the Rec Center at 8 am Saturday, April 3 (along with any WCC members who can and want to attend). The Rec Center looks to be a great location for the garden because it is already tied into family recreational and educational activities and has adequate space for both the garden and potentially a greenhouse. Marisa will discuss with Lisa the possibility of locating a greenhouse (paid for by a private donor) on Rec grounds (this would likely require power and water and may need town approval).
- **Rec Center Trail:** Andrew and Jeff will meet to map out a prospective trail using superimposed GIS town tax maps so all landowners along the proposed path can be identified.

Old and New Business

- **Presentation for Town Meeting:** Meeting is May 25 as far as we know. Deborah has the display that was used in the past and has some materials to go with it.
