

The time has come...

As mentioned at Town Meeting, the final step in the Weston Village Bicyclist & Pedestrian Safety Study is to present designs created by Dubois & King to Weston residents. They are ready to share a few different approaches to consider in making the village safer for foot and bike travel in an upcoming presentation for town residents!

The purpose of the presentation is to hear feedback from the town about these options.

The engineers have crafted illustrations for consideration. They will be discussing the strengths and weaknesses of these alternatives and asking for input from residents.

Due to COVID-19, this presentation will be made accessible in 3 ways:

- **In person** on September 20, 2021 at 5:30 pm at the Weston Playhouse. Masks and social distancing required. Because of changing COVID-19 guidance, please check the Town Website to confirm the in-person meeting is taking place.
- **Virtually via Zoom** on September 21, 2021 at 7:00 pm.
- **The Recorded Zoom** session will be accessible on the Town Website.

In addition, the design illustrations will be available on the Town Website and GNAT. There will also be a printed set of plan proposals available at the Town Office to look at in person.

Please note: Moving forward with any of the plan designs would have to come before the town at the next Town Meeting on Tuesday, March 1, 2022.
